

Stream No. 13 (2 notices)

Montgomery Bay, Latouche Island.

At lagoon outlet

Width: 12 feet

Depth: 6 inches. (Includes all waters)

South stream has a fine gravel bottom and is accessible about 1/2 mile.

Three small issues flow into the lagoon. They are all short, but have good bottom.

Sept. 19, 1926: Evidence to justify an estimate of 5,000 fish.

Aug. 22, 1927: 5,000 fish.

Stream No. 14 (2 notices)--Next bay north

(1) Stream south side of bay

Width: 4 feet

Depth: 3 inches.

Coarse gravel bottom. Small lagoon.

(2) Stream S.E. corner of bay

Width: 12 feet

Depth: 4 inches

Tide goes up to a falls 30 feet high. At half-tide 1,000 feet of stream. Upper end rough rocks; lower end coarse gravel.

(3) Stream at S.W. corner of bay

Width: 6 feet

Depth: 4 inches.

The bottom here is rough rocks with some fine gravel mixed. It is about 1/2 mile long ending at a small lake covering an area of 7 or 8 acres. The lake has a dirty bottom and water lilies,

with the exception of one place where a small stream enters it.

Sept. 19, 1926: The 3 streams were good for 5,000 fish, and 75 silvers in third stream's lake, where the little stream enters.

Aug. 22, 1927: 6,300 fish.

Stream No. 15 (No notice)

Wilson Bay, Latouche Island.

North stream

Width: 6 feet

Depth: 3 inches

Accessible 400 feet above mean high tide.

Rough, rocky bottom. Fair bar at mouth.

Stream No. 15 cont'dOther stream

Width: 6 feet

Depth: 3 inches

Accessible about 400 feet and some of that bare rock bottom.
Some fish spawn around the half-tide mouth where the bottom is better.

Sept. 20, 1926: 2,000 fish all told here.

1927: No visit. Estimate allowed for.

Stream No. 16 (1 notice)

Crab Bay in Evans Bay.

The two parts combined:

Width: 15 feet

Depth: 4 inches

Accessible only a short distance above high tide line,--
5,000 feet during wet weather; dry 1,000 feet.

The bottom is fine, flatish slate gravel. Shallow salt water
off mouth.

Aug. 8, 1926: 1,000 fish alive and dead.

Aug. 8, 1927: 20,000 fish in stream. 25,000 in bay near
mouth. (Fish upstream 5,000 feet.)

Stream No. 17 (1 notice)

East side Evans Island, Latouche Passage.

Two streams here, both with lagoons.

South stream

Width: 7 feet

Depth: 4 inches

Accessible 1,100 feet.

Medium fine gravel bed.

North stream

Width: 5 feet

Depth: 3 inches,--at lagoon outlet.

Lagoon about 600 feet long. Two small streams at head,--one accessible
about 300 feet. It takes a big tide to put water into the lagoon.

Sept. 3, 1927: 18,300 fish.
